

SECOM-D-145
12 April 1976

MEMORANDUM FOR: Executive Secretary, USIB

SUBJECT : DCID 1/14

REFERENCE : USIB-D-9.3/13

1. This memorandum is in response to your request that the Security Committee incorporate the recommended changes submitted by three USIB members on the DCID 1/14 vote sheet action. These changes were considered at our meeting on 30 March 1976.

2. The CIA recommended changes were all agreed to and have been included in the attached revised draft of DCID 1/14 on pages 2, 3 and 5.

3. The State member recommended a substantive change on the investigative requirements pertaining to police checks and verification of employment [paragraph 11 (c) and (f)]. They would like these investigative requirements reduced from the present 15 years to 7 years. The Security Committee members recommended that the 15-year requirement be retained and the State member agreed to negotiate a withdrawal of this recommendation with his USIB Principal.

4. The DIA recommends rewording paragraphs 13 and 14 which concern the periodic reinvestigation of personnel provided access to SCI. The present draft provides that a reinvestigation will be conducted on a five-year recurrent basis, but on a more frequent basis when there is questionable or suspect activities, or when deemed necessary by the Senior Intelligence Officer concerned. The DIA proposal would eliminate the underlined portion above.

5. The NSA member is against this change and requested that the DIA recommended change be considered by USIB.

6. Since the original revised draft of DCID 1/14 was initially unanimously agreed to by the Security Committee, it is recommended that it be placed on a USIB agenda to consider the proposed DIA change.
